

Career Booster Programme

What You'll Receive

Over 4 weeks, we'll build your complete career toolkit together. Each session adds to your package, so by the end you'll have everything you need to position yourself with clarity and confidence.

Your Complete Toolkit

Career Blueprint

Your master reference document. Captures your unique patterns, positioning, evidence of impact, and what you need to thrive. We build this together across all 4 sessions — it becomes your "source of truth" for career decisions.

Interactive CV Builder

An editable CV template pre-loaded with your content. Draft your proposition, toggle sections on/off, pull from your Blueprint, and export as PDF. Create tailored CVs for different opportunities in minutes.

Blueprint to CV/LinkedIn Mapping Guide

Your translation key. Shows exactly where each piece of your Blueprint lands in your CV and LinkedIn profile. Includes the proposition formula with your examples, so you know precisely what goes where.

Decision Framework

A reusable scorecard for evaluating any opportunity against your patterns. Based on four core tests: Belief Transformation, Authenticity, Sustainability, and Growth & Impact. Never second-guess a career decision again.

AI Prompt Library

Custom prompts pre-loaded with your positioning. Use them in ChatGPT or Claude for CV tailoring, cover letters, interview prep, networking messages, and ongoing career support. Your personal AI career assistant.
